# The "PIP"

Parque Independent Press

September 2010

I'm exhausted....every bone in my body aches, from working at the annual Flea Market. Char Reynolds chaired this mighty event and worked like a dog (as did others who have chaired it in the past) and frankly, I don't know where she gets the energy.

At a break in the hordes of people coming in to shop, I talked to Char and thanked her for allowing me to work with her and her team....or, that is, being a part of her team. Although I knew my many neighbors who helped sort, stack, separate and price, I was fortunate in being able to work with others I did not know, like Carol Blum, Lisa Sand, Ellen Mahal, Connie Fisher, Doris Rodler, and the "crazy" Tiny Sand. There were times when we just laughed right out loud!

One crazy instance involves a burnt orange-colored 1/4 measuring cup. This particular cup was tossed into a container with other items; there were no other measuring cups to match. It just so happens that I have two sets of measuring cups, but the 1/4 cup measure is missing and I need that size to measure out my oatmeal. I eyeballed that cup and wanted to buy it, but the "warden" (Char Reynolds) refused to let us buy anything ahead of time. So, every day I would come in to work, and would wander over to the knick knack area and check out where that little cup was placed. Now Friday rolls around, I walk in at 9 a.m. to start working and I can't find that measuring cup....where oh, where is that cup? I was in Big Basin State Park on Thursday, and was therefore not able to help with the sorting so I guessed that someone had moved that cup to a better display area....or.....they tossed it in the garbage.

I worked up on the stage with Connie Fisher, pricing the holiday items and when Connie needed another box or any errand, I told her I would do it, get down off of the stage and then surreptitiously

search for that cup. The others started to notice what I was doing and would remark, "You're not STILL looking for that measuring cup, are you?" Alcinda Waters got so fed up with my nosing around she offered to go out and BUY me one. Well, the cup was gone, no two ways about it.

That night at the preview party, my name was called for a raffle prize.... can you guess what I won? That stinkin' orange cup!!! Tiny knew I wanted that cup, pinched it and slipped it to Shari Keller who then pretended

that I won a raffle prize. That's the kind of shenanigan's that went on.

One "warm fuzzy" story involved a beautiful vase....a gorgeous vase. The vase was in the boutique and I wanted it badly. At the stroke of 9 on Saturday morning, I grabbed the vase and put a "sold" sign on it. Shortly afterwards, two ladies came into the boutique and looked at the vase and were disappointed that the vase was sold. Nothing more was said.

A little after noon, an elderly woman came into the boutique and started talking to Lisa who then came over to me and asked me if I had purchased a vase. I told her I had, and she asked to see it. When I unwrapped it from the newspaper, the lady gasped and said, "That's my vase." ....Turns out she loved that vase, and it was given to her by a

good friend. Her kids, in helping her move, had taken the wrong box to the flea market. Naturally, I returned the vase to her and she asked my name and then I asked hers. She said her name was Vi Allen.....which sorta rang a bell. I told her I had neighbors by the name of Allen and she asked me where I lived. I said, "The corner of Amaranth and Royal Arch" and guess what? She lived at the same corner! She was my neighbor whom I never met in the 6 years I've been here. She was so grateful that she got her vase back, she invited me over to see her house. We had a nice chat and the vase was proudly displayed on a sideboard.

Another really stupid story involves Myron Coleman. On Saturday, we were really busy, and I was dying for a cup of coffee. I noticed there was a coffee pot in the kitchen...but no cups. So I called Myron and asked if he was coming to the sale, and if he was, would he do me a favor? I told him there was coffee in the kitchen, but I searched through all of the cupboards and could not find a single mug. He then said, "Aren't there any mugs for sale? What an idiot I was! Of course there were mugs....we had a ton of them. Bottom line, I washed two mugs and gave one to Joanne Nelson who was also longing for a cup of coffee.

So, now I'm in my cabin...trying to rest my weary bones as tomorrow we will do it all over again....except it will be 1/2 price sale time (from 9-1) and then \$5.00/brown bag after that. Monday we pack up all of the leftovers for Goodwill and then Tuesday we are FREE!

## GOOGLE VOICE

By Mike Sawley

Are you paying \$25.00 per month to AT&T for their Unlimited Nation-wide calling? Or their \$0.05 per minute at a subscription rate of \$5.00 per month? Or better still, their a-la-carte rate of \$0.12 per minute? Maybe you call Canada. AT&T will let you have unlimited minutes for the monthly subscription fee of \$5.99. In my case we call South Korea for \$0.10 per minute using prepaid calling cards.

Let me tell you how you can get these services for dead free. Yes, free, as in no money at all. All you need is an existing phone with a touch tone dialer and access to a computer for about 10 minutes.

First make sure you have an email account. Google mail is great. It seems to be always up, they give you lots of space and the spam filtering is excellent. I don't think I've seen a spam message in 6 months get through. But I'm pretty sure any valid email account will work.

Next, go to <http://voice.google.com> and login, by following the prompts.

You must then select a number to use as your Google number. It could be any number you want in any area code that you want, but to make long distance dialing free, you'll need to select one that is local to your landline. Once you've done that, you must link your new Google number to a number that you already own. In our example it would be your home landline, but it could be your business or cell phone numbers too. You can link many numbers if you want to. You can link your work number, your home number, the number in your second home, your cell phone number or any other number that you answer frequently. This way, a caller can reach you no matter where you are, because all those phones will ring at the same time. The others will stop when you answer one of them.

Once you have everything setup on the web, you can make free long distance phone calls to any U.S. number including Hawaii and Alaska. You can also call Canada at no charge. You don't need to worry about the time of day and it doesn't have to be a night or weekend. You can also call overseas at very inexpensive rates. In my case, a call to a South Korea landline is \$0.02 per minute instead of the \$0.10 per minute that AT&T is offering me.

Remember, you don't have to use a computer to use the Google Voice service, but there is a lot that a computer can make more interesting and useful.

The PIP is an independent monthly publication. Articles for inclusion should be submitted by 5 p.m. of the Monday following the Board Meeting. Subscription rate is \$8.00/year.

Editor: Shirley Radder ([radder@lemoorenet.com](mailto:radder@lemoorenet.com))

### Why Worry?

There are only two things to worry about –

Either you are well or you are sick

If you are well, then there is nothing to worry about

If you are sick, there are two things to worry about

Either you will get well or you will die.

If you get well, then there is nothing to worry about.

But if you die, there are only two things to worry about.

Either you will go to heaven or to hell.

If you go to heaven, there is nothing to worry about

But if you go to hell, you'll be so darn busy shaking hands with old friends you won't have time to worry!

For example, if someone leaves a voice message on your Google number, Google will transcribe it and put it in your email box, so you'll have a written record of it. It's not perfect, but it gets the point across. You'll need a computer to view that transcription.

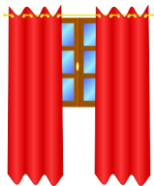

You can get more information by going to these websites:

<http://www.google.com/googlevoice/about.html>

[http://en.wikipedia.org/wiki/Google\\_Voice](http://en.wikipedia.org/wiki/Google_Voice)

I want to be clear that I'm not an employee of Google or affiliated with them in any way. I just think their Google Voice service is a great value and I wanted to share it with you. Heck, I'll bet that PPMC, Inc. could save a pretty penny by switching over to them. I believe they will be offering the service for a while and have larger plans in mind. Google reserved one million U.S. phone numbers in 2009. They also paid \$125 million in acquiring the underlying technology.

### WHITE REDWOOD TREES

While vacationing in the Big Sur area a few days ago Carol and I were quite surprised to come across a rare Albino Redwood tree. It was located in the Fernwood RV Park a couple of miles north of Pfeiffer Big Sur State Park.

White redwood trees, also called Albino Redwood, is a parasite plant that attaches itself to the root structure of a host redwood tree. Such plants are genetic mutations that lack the necessary chlorophyll that would enable them to capture the sun's rays and convert the energy of the sun to food. The lack of chlorophyll prevents its leaves from turning green. The redwood leaves (feathers) have an ivory color while living, but when dead they become as brown as any usual redwood feather. The shape and appearance of white redwood trees is more like that of a bush than that of a tree, and the one we saw, although fully mature, was only about six feet tall. There are less than 24 known Albino Redwood trees in the world, and all are located in our Pacific coastal range reaching from Humboldt to Monterey. The pictures we took of the white redwood near Big Sur didn't turn out well, as it was in deep shade and the tree was covered with campground dust, so I attached an internet picture of a similar tree located in Humboldt County to give you an idea as to its appearance.

Bob Morgan

## MANAGING YOUR MONEY - #1

### INTRODUCTION

By John A. Mancini

This column, that I hope will be a regular one in the PIP, is intended to help Members of PPMC to effectively manage their money. Many individuals concentrate their money management efforts on their savings or investment money. While doing this they overlook the effective use of credit cards, checking accounts, etc. My objective is to show you how to manage all your money.

I know that many of you depend upon others to help you manage your money. Those that do are probably paying for this service. I hope that I can show you that all of us are capable of managing our own money. Certainly we have the greatest vested interest in successfully growing and preserving our own money.

I know that for most, discussing finance is about as interesting as watching paint dry. I hope that I can present this material in a simple and interesting manner. You had a taste of the tools of finance if you read my column I wrote about "Maximizing CD Income" in the May 2010 issue. I would encourage the readers to ask questions and add their own ideas. I would like that to be a second column. I am also available to any Member that has questions.

Before one can use the various financial tools, you need to understand them. I will start out by explaining these tools and how they can be used in the scheme of managing your money. There was a very famous and successful mutual fund manager named Peter Lynch. He managed the Fidelity Magellan Fund from 1977 to 1990. During that time the fund grew from \$20 million to \$14 billion. Under his management the fund had an average return of 29%. Now that I have established that he knew what he was doing, I will give you one of his most important secrets to success. He said, "**Never invest in anything you do not understand**". That is why I am starting this column by teaching you the tools of the financial trade.

Please understand that I will be speaking from my own personal experience and will be discussing the financial tools that I know and have been effective for me. There will be many tools that I will not be discussing because I have not found them to be appropriate for you and me. I encourage the reader to bring other tools up for discussion and would be happy to discuss them at that time but I think you will find it hard to convince me that they are appropriate for us.

Stay tuned for the first lesson in Managing Your Money in the next issue of the PIP.

#### Tied to Masonic Apron Strings

It was the night to receive the Master Mason degree. The veterinarian was all "dolled up" and ready to go, when he received a phone call to come and castrate a farmer's hog. He demurred, but was told that if he didn't come that night, the farmer would take his business elsewhere. Finally he went, dressed in his very best, and did the job. It was getting late—the veterinarian was in a hurry—so he wrapped up the parts removed—shoved them in his coat pocket, and hurried to the lodge. He was selected to be the first candidate, and as he was preparing to go into the lodge room, he thought of what was in his coat pocket, and hurled the package through the transom. When they came back for the other candidates, all had left!

*Wild Lily* 7:30 meetings

Sep 15 – 7:30 – Hawaiian Night

Santa Cruz Redwoods Chapter initiated two members on August 23 – Jasmina Brown and Gayle Hursh. There were more than 30 sideliners which shows a lot of support to those who are being initiated. The initiation portion was completed in less than an hour due to the fact that the officers knew their work...yes, they all did a really good job and I have to congratulate the two men, Howard Benfield and especially Perry Olsen. As a Conductress, it is very difficult to work with the signet if the Worthy Patron stumbles or has to be constantly prompted. Not so with Perry. He was right on (or at least if he made an error, it was not noticeable). He talks like he is telling a story.

One of the candidates had to reschedule her initiation, so there will be a chance for you to observe a really well-done initiation before the end of this term.

Rainbow Installation  
October 2  
7 p.m.

Michaela McFarland, WA Elect

America Ramirez (Eduardo's daughter) will be installed  
in her first office.

## Narrative Minutes of 21 August Board Meeting

By Shirley Radder

After the opening items and the member informational items, we had a report from the Manager which was given by Tim Heer, Acting Manager for Cyndy Crogan who was on vacation.

### **Manager Report:**

Some of the highlights included:

Guidelines for fines have been printed in the Bulletin

More volunteers are needed for the orientation committee

The interior of the picnic grounds bathroom has been worked on

A rules and procedures card will be published in sufficient number to be distributed during the gate check over Labor Day

A window was replaced in the conference room

Picket fence has been painted.....replaced two broken pickets

Cyndy asked Matt Johnston for a report on the 2 mile river and stream status

Social Hall has been painted, except for any trim which can be reached by a stepladder which will be painted by PPMC crew.

PPMC network administrator is Todd Williams

### **President's Report**

Due to time constraints, let's try to keep sidebars to a minimum

### **Treasurer**

A small operating loss normal for this time of year due to a large water expense

Water project – going through the invoices  
A motion was moved to prepay \$252,000 to Roboback for water project loan at this time  
Motion carried

It is the intention to have an outside audit when all of the compilation of the water project is done. Mark Zevanove spoke about the meeting with Gayle, Diana and him regarding restructuring the Robobank Loan.

### **Special officer report**

First Director's Spotlight Award Recipient– Char Reynolds for her work on the flea market. Mable Coleman invited everyone to attend a ceremonial tree planting for daughter, Myra Sandretti, on Sunday at 4 p.m. on Washington Parkway.

### **Committee reports**

Covered bridge – reroof or recoat.? Reroofed makes more sense. A motion was moved to spend \$33,484 and then it was changed so the board voted on each item instead of a blanket \$33 which is not allowed by the bylaws. So motions were made to reroof the bridge, repave the road, and replace some rafters. (Remember, read the approved minutes in the Bulletin.)

Michael Bates spoke about the proposed picnic grounds renovation:

Raise the kitchen shed and put in a new concrete floor...elevated about 4 – 6 inches...new electrical...new plumbing, new light fixtures....exterior down lights on each side of the kitchen which will be on a photo cell and a motion detector

Bathrooms...inside replacing the switch....timed switch....exterior lights down by the steps to turn lights on just on the steps

All electrical would be done underground.... lights on the basketball courts? Not a good idea

Clean washable walls in the kitchen,...new counters...new appliances ....men's club has the money ....no lights at the bocce ball courts

Discussion on the kitchen...how much? About \$10,000 or so....depending on the stove price

Michael Bates was thanked for his efforts....

Talked about insurance for volunteers...have 3<sup>rd</sup> party insurance.....PPMC now pays \$511 yearly for fire volunteers.....A motion was moved to look into insurance to cover all volunteers

### **Staking**

John Demsen reported on the Huckobey vs. Nelson staking. He felt the staking completed in 2006 was perfectly reasonable. He wanted to know if the Board was going to honor the 2006 staking or if they want to honor Huckobey 's request to restake.

The Board decided to hold off for now.

### **Tree report**

A motion was moved to remove the subordinate trunks from a redwood tree located near the small social hall at no cost to the park. The motion carried.

### **Recreation**

Shirley Moore stated the Labor Day dance will be from 7:30 to 10:30. That time is firm. The movie tonight after the potluck will be Annie. Movies will continue during the winter months after the monthly potluck.

Classes will be scheduled at a later date...one on how to buy and sell on E-Bay by Eddi Brown. The other class will be on the use and care of kitchen knives by Ron Moore.

Flea market....approximately \$7,200 collected and the monies are to go toward the picnic grounds renovation

LABOR DAY DINNER tickets are being sold in the office. Last year there were 280 tickets sold. Sign up to ensure you will get a lobster...or steak...or chicken.

**Cert Sessions Training**

Aug 25 - Sept 25 and Oct 6 to Nov 6.....two new cert sessions....4 wed and 1 sat...from 6-9:30pm cost is free

\*\*\*\*\*

August 6

We stepped "out of the box" this evening and instead of a "Section Party", we enjoyed a "Block Party" on St. Bernard in Section 6. Lots of fun, socializing and good food was enjoyed by all. Thank you to Judy and Chuck Buchanan who came up with the idea a few weeks ago. We will definitely be doing this again soon!  
Gretchen Logan

Gate check – 1 more person needed....have 2 people to a shift and would like to have 3 starts Sunday at 9 p.m. to Monday at 9 p.m.over Labor Day weekend.

Ernie Nidick brought up the subject of having the Park pick up green waste

Proposal #1 on this year's ballot, because of the way it was worded, did not pass. It is planned to have a special election regarding this proposed bylaw amendment and the Bylaws Committee is going to start working on the wording for it.

The meeting closed at 1:30 after 4 hours. Remember, for the real scoop, read the official set of minutes to be published in the Bulletin

\*\*\*\*\*

FIND MORE INFO ON SEPARATE DINNER AND AUCTION FLYERS

## LABOR DAY WEEKEND

**SATURDAY, SEPTEMBER 4, 2010**

**NOW IS THE TIME TO THINK ABOUT WHAT YOU CAN DONATE**

There will be an auction (both silent and live) on the Saturday of the Labor Day weekend, September 4<sup>th</sup>. In order to make this auction a success, **your help is needed**. We would like you and your family to contribute items to be auctioned. The Auction and the Flea market do not conflict with one another in that the auction wants new and/or collectible items, not miscellaneous knick-knacks.

If you are an artisan, craftsperson, baker or canner, please donate some of your work....OR If you have access to commercial products or services, please donate any of those.....OR If you have a condo, cabin or vacation house, please donate a week's or weekend's use. OR If you have friends or acquaintances with skills or products, you could ask them to donate....OR If you have a special skill, please donate some hours towards a project. Sample projects include:

- putting on a banquet for 8 persons at their home
- giving hours of labor to repair, paint or clean a house, yard, roof, car, etc.

**Also, you can sign up to solicit local merchants for donations. Please sign up before soliciting, as we don't want to duplicate requests to merchants. Feel free to solicit from out of area merchants.**

**We also accept cash/check contributions.** Make checks payable to PPMC. Send to AUCTION c/o Fred Dunn-Ruiz at 606 Paradise Park, Santa Cruz, CA 95060..

Please notify Fred Dunn-Ruiz as to what you will be donating as soon as possible. We can accept goods up until the last minute, but would like to have as many as possible by September 1<sup>st</sup>.

If you have any questions about what to do, please call Fred Dunn-Ruiz at 831/426-6472.

The following is a partial list of some of the items that will be for sale:

- | NO. | DESCRIPTION   |
|-----|---|
| 1   | STORRS 2007 GEWURZTRAMINER AND A TASTING FOR TWO AT STORRS TASTING ROOM<br>www.storrswine.com .... DONATED BY STORRS WINERY   |

Ellen  
% Fred Dunn-Ruiz  
606 Paradise Park  
Santa Cruz, CA 95060

Thanks. Ellen Gardner Mahal

## **SOMETHING NEW AT PPMC**

Your Recreation Committee presents  
A series of classes for your instruction and enjoyment  
Presented by members of our own community

### ***“BUY AND SELL ON E-BAY”***

Whether you are E-Bay savvy or just a beginner, join us for tips on selling your unused treasures or on getting some real bargains online.

1. A beginners' class will teach us how to set up an E-Bay account and a Pay-Pal account so we'll be ready for the good stuff.
2. The second class will be for everyone, experienced or not. Come learn something new or show us how you get the most out of your online shopping.

To sign up call Eddi Brown at 426-2648 or e-mail her at [sfoeddi@yahoo.com](mailto:sfoeddi@yahoo.com).

Dates will be set when we determine interest, as class size is limited.

### **“KITCHEN CUT-UPS”**

Learn all about your knives in the kitchen. This class will cover types of knives, picking the right tool for the job, knife safety, sharpening, and cutting techniques that will improve the quality, preparation and presentation of your food.

Class will be Saturday September 11 at 1:00 p.m. in the small social hall. Class size is limited to allow for individual instruction. If there is sufficient interest, a second class will be offered. Instructor is Ron Moore of 463 York, graduate of a culinary school.

To sign up call Shirley Moore at 423-6449 or e-mail her at [goofy2nz01@aol.com](mailto:goofy2nz01@aol.com).
