## Millie Schaefer

by M.T.

True friend, wonderful neighbor,  
Great gardener, gifted painter,  
Gone – but never forgotten..  
Her home she loved unoccupied,  
Her beautiful garden waits,  
Her friends remember her fondly,  
Grateful for the time we shared.  
Rest in peace, Millie.  
Gone – but never forgotten.

# The "PIP"

Parque Independent Press

August 2011

The All Wheels Parade was the big event in the Park for the month of July. I've been in the parade several times and this year I decided to watch and enjoy.

The weather this year worked for us...Many of you will remember that last year it was freezing cold on the 4<sup>th</sup>.

I took a few pictures, but they did not turn out as well as Myron's, so I asked him if I could publish his pictures of the parade in the PIP.

Chuck Cook

Millie Morgan

## In the Warm California Sun

By Jasmine Glenn

**Santa Cruz Rainbow Assembly** kicked off its summer with the installation of Michaela McFarland on May 28<sup>th</sup>. The day was filled with magic and plenty of gold and red decorations in the style of the one and only Gryffindor House. Everyone in the assembly was excited to get sorted into their new offices and perhaps equally as excited for all the fun events the assembly has planned for summer 2011! We even had a surprise guest -- Mr. Coonerty, the mayor of Santa Cruz! He came to our installation to award several members with medals for earning the President's Volunteer Service Award (President Obama was a little too busy to visit us in person). Wendy, Jasmine, Shannon, Audrey, and Michaela won bronze medals; Bryn was awarded the silver; and gold medals were earned by Mariel and Katelyn. We even had our picture and an announcement put into the local newspaper!

Our first event on the calendar is a Potter movie marathon in which every Potter movie made thus far will be watched

consecutively throughout the whole night... it is yet to be seen who will make it through without falling asleep. Our sleepover will also be great preparation for the premiere of the newest movie which we will attend together in July.

Membership is our biggest focus this summer. Sometimes it's intimidating to think about how we can grow and continue California Rainbow, but it was brought to our attention that our assembly and every assembly can have a huge impact by simply having a positive membership increase of two members to meet the California goal of 1,000 members! Santa Cruz is determined to surpass this goal over the summer. We have our sights set on initiating six new members this year and it looks like we will be half way there this summer.

Since it's Santa Cruz and we are *The Real Surf City*, one of the biggest membership events we have planned is a beach day extravaganza followed by a trip to our favorite little ice cream shop. Summer isn't just about fun and games though you know, it's also about service. So how will

Santa Cruz Assembly be of service this summer? Well, it has been an annual tradition now that we fundraise and participate in Relay For Life. We help out our Eastern Star Chapters by taking on the overnight shift and then assisting in clean-up in the morning. One of the neatest things about this service project is how involved our adult orders are too. It's also a great way to introduce girls to Rainbow because they see us actually making a difference in our community and having fun at the same time. At the end of the Term we will partner with Save Our Shores to help clean our coastline and – what else? – spend some time at the beach!

As we set forth, we know not what lies ahead, but do we know that we will do our very best to make this summer one to remember!

\*\*\*\*\*

### **POO No More!**

An AP story ran in the June 25, 2011 Santa Cruz Sentinel entitled, "Apartment manager using DNA to nab poop-scoop scofflaws." The article explained that some apartment complexes are using DNA testing on dog doo to find out who's not cleaning up after their pets. Samples must be submitted from the dogs so DNA profiles can be put on file.

A company called PooPrints, a subsidiary of BioPet Vet Lab, provides a feces collection kit. A small amount is put in a solution and mailed back to the lab. DNA is extracted from the feces. The lab then checks to see if it matches any of the profiles listed.

This might be a solution to the problem here in Paradise Park....but, the question remains...who would be assigned the task to go out and collect the original samples to be placed on file?

### **To Everyone Within our Masonic Community,**

Was I disappointed after Saturdays Annual Meeting? Of course I was.

I was disappointed that the Statements failed to be adopted. These statements were composed by our community as a desire to begin a journey toward a common goal. I believe they were defeated, not because those who voted against them don't believe in the goals, but because of an ongoing power struggle.

I was very disappointed to hear a member say that improving the lives of our neighbors isn't something that we need to be concerned with here in Paradise Park. I strongly disagree!

I heard that the Mission Statement was too long. It is long, however these are the dreams and desires of a diverse community. If you read the Mission Statements of Avon, (240 words) Hewlett Packard, (663 words) Johnson & Johnson, (422 words) Kellogg Company (355 words) and the Grand Masonic Lodge of California (244 words) they do not conform to that opinion of a 'proper' Mission Statement either. Professionals in the field think these statements may be too long as well, however they qualify that statement with: "...formats are as different and diverse as the specific needs, ideology, market conditions, etc., dictate."

When another speaker asked if anyone was willing to work on these statements, I could have heard crickets chirping. Gary Brandenburg told me on Sunday that he raised his hand. Gary, I hope you can convince others with your guidance, to continue the hard work we began in January. We had a wonderful and diverse committee and the community did have many concerns to be addressed by this new board of directors.

There are CD's in the office of our entire process, including our final report. They are available to anyone who wishes to have one.

Thank you to those who still believe in 'Utopia', and voted to adopt the statements.

***Cheryl Dangreau***

## BUTTER

By Cupcake

Have you given "butter" any thought? Well, I have. Ahhhh, sweet cream butter. REAL butter. There's really nothing like it, although many imposters try, and some would have you believe that there are other spreads that compare---it's simply not true. But alas, I am a confessed "butter snob". I don't settle, unless circumstances beyond my control dictate, for just any ole cube-cut, paper wrapped, annatto colored something. NO! There are butters, and then there are REAL butters. The kind that, when added to a warm mound of mashed potatoes or a fresh stack of piping hot flap jacks, adds the perfect wetness and slightly..... well, ".buttery" flavor that makes one's mouth water and fill with comfort; bite after luscious bite. The kind that when chunked onto a nice tear of warm sourdough bread, softens to just the right consistency that every bite brings forth the yeast and the savory.

The problem with your typical store-bought butter today is, as many things, mass produced. By that I mean to say that there are fillers, such as water, salt and colorings. Yes, it's true. Additionally, the butter powers that seem to be, believe that the consumer requires cubes, and a brighter color than that of natural butter.

Side bar: how many "square" measuring cups have you ever seen?

Anyway, as I was saying, by law, US butter must contain a minimum of 80% butterfat. Small batch butters usually contain a butterfat content of somewhere around 86%. The higher butterfat gives the butter more flavor and better texture, which makes pie crusts flakier among other nice things.

Also, there is the "salt" consideration. Many small batch butters contain only a modicum of salt, which acts as a preservative. Mass produced butters contain larger amounts. Some would say that the salt adds the flavor, but I would say that they have never tasted true REAL butter.

In Santa Cruz, I have found McClelland's Artisan Organic butter. This is a "small batch" made butter that is produced in the hills of Sonoma County by a family-owned dairy that raises their own award winning cows. Just last year their cow, Lily, won Grand Champion and Best Udder of the Holstein Show in the California State Fair! Their butter has also won accolades; Double gold winner at the 2011 Sonoma County Harvest Fair, 3rd place winner in the nation at the American Cheese Society conference.

Best Udder

You can find McClelland's at Whole Foods and New Leaf Markets in Santa Cruz and Capitola. For baking, I find Plugra brand to be of good quality and taste. It is not organic, but is made in the traditional European style, with less water, and a higher butter fat content, so it, too, has a good "butter" flavor, and moves around a warm piece of bread well.

The gist of it is, when considering one of life's small guilty comfort pleasures; if you are going to slather anything at all on your precious pastry, or fresh warm bread, it should be of the highest quality and flavor one can afford one's self during such indulgences.

Now go out and set yourself up for a treat with a fresh loaf of that wonderful crusty chewy soft warm sourdough bread, and a crock of small batch made artisan buttery butter. Give it try and remember that I told you so!.....and then practice restraint.

## Stretch Leftner Turns 90 Years Young!

Approximately 30 people were on hand to celebrate the 90<sup>th</sup> birthday of Stretch Leftner on Saturday, July 15 in the picnic grounds. Refreshments included delicious hamburgers with all of the fixin's, potato macaroni and jello salads, a variety of drinks and the usual birthday cake with ice cream. Stretch's eyesight is a little weak, so he asked son, Bill to read the cards out loud.

## Idols on Tour

It was Wednesday July 13th, and the evening we had all waited for had finally arrived! First we had a fabulous dinner at The Elephant Bar in Campbell and then off to the HP Pavilion. The **American Idol Tour** had come to San Jose, the closest venue to finalist James Durbin's home town of Santa Cruz. This concert has been a tradition for Shirley and Betty but it was a first for the rest of us. Eleven very talented young people who were idolized by millions over the last year entertained a few thousand screaming fans. What a show!

## Windmill House Sequel

Back when the park crew picked up our trash, a brand new driver who was just learning the routes, traveled toward the bridge in the park's high sided truck. At that time, the windmill house had a very low carport roof, built long ago. As the driver came to that part of Keystone, he encountered a car coming from the direction of the bridge. He dutifully pulled to the right side to let the other car pass on his left. It was a tight squeeze. He noticed that Keystone slopes sideways there, to allow a car to enter the carport. So his truck tilted down toward the river. But he forgot about the high sides of his truck – just high enough to catch carport roof. in passing. I was at home and did not know about the “gravity” of the event, until a kindly neighbor phoned and announced rather soberly “your roof is on your deck”.

Them was the days my friend. *Mal Kirby*

## ClickAway.Com

A few weeks ago, my computer was “sick” so I took it to Click Away.com which is a computer store in the new Sash Mill complex. A technician by the name of Toby waited on me. I told him what was wrong...he fiddled with my computer for a few minutes and Voila! It was fixed....I asked him what I owed and he said “Nothing.” I decided to put in a little plug for his company and for him including his business card. I highly recommend this computer company.

## Minutes of July 23 BOD Meeting

*Remember the following is based on what I observed and heard at the Board Meeting. For exact wording, please read the official minutes published in the monthly Bulletin*

Forty-four people were in attendance with 20 of those who attend Tuesday Coffee. The meeting opened with a beautiful invocation given by Sharon Simas, which was then followed by the Pledge of Allegiance led by Diana Cook.

Griff Nelson was the first to speak during the Open Forum and he remarked on the divisiveness of the Park, staking issues, reserve fund, rentals, licensed realtors selling park improvements and cautioned the Board to ensure committees only report to the Board.

Bill Lind spoke on the water pressure and water flow project which the County had targeted for 2009, but I believe he said the county has postponed this project until 2015. So our water pressure and water flow will remain the same.

Mark Zevanove stated that Bob Morgan is in the hospital recovering from surgery.

It was moved and seconded to approve the minutes of the open board meeting of May 21. Karen Eneboe and Pat Herzog objected because Sharon Simas was referred to as "President" and they felt she should be referred to as "acting" President because she was not "elected" to the office. Time was wasted discussing that issue. The Board approved the minutes as written. When the next set of minutes, June 18, 2011 were discussed, the same objections were raised. (Remember when President Kennedy was shot and then died, there was not an election held to have LBJ step in as President. That's why there IS the office of Vice President.)

Next order of business was the Director's Spotlight Award which was given to me. I was tickled pink. Thank you!

Manager - PG&E has almost completed both of the projects of trimming trees in the Park. The small Brush removal is complete except for the Entrance portion of Keystone. They have stopped work on it due to concerns of wood being left behind in the repairing corridor. The Large project mainly along The Royal Arch is complete except for the removal of one tree which is going through the approval process within PG&E. This Group has other projects slated for the park but they too are in the approval process as will.

The wood chips from the large project I had the dump them at the Picnic grounds and Eduardo is in the process of spreading them around the grounds.

We have a number of Redwood trees in the picnic Grounds that are in need of trimming. I have asked Richard's Trees service for an estimate on removing the hazard. He counted 40 trees in the area and priced the whole area at \$6,000.00. Our Annual Budget is \$7,000.00 for account number 6224.00 Tree Trimming/ Maintenance. I would like the Board's approval on this expenditure.

We recently had a trip and fall on The Royal Arch where a member had trip over storm grate. I had Eduardo make a new collection book with an opening that fit the grate. The line out of the box was also cleaned out. Eduardo also made a collection box for another drain on Washington walk way. This was a new box where we have a drain pipe and drain line leading to it just no collection box so that the drain pipe was all silted up and rooted, the drain pipe is now cleaned and all and should work fine during the winter.

For those who think the modern day Manager has it a lot easier than Manager of days gone by because of the new water lines. This may or may not be true because Eduardo replace two water valves, fixed a linking pipe and repaired a broken water line, sounds just like the good old days.

Last month the Board established a new policy to require all guests, be it a family member or a friend who is living in a member's improvement without the collective member present must go through Orientation. Some Orientation have already

been completed others have been setup and Annie is working on setting up a time for other but we have not heard back from a few we knew about and were sent letters. Tim Heer, Interim Manager

President's Report – Sam thanked all who voted for him and said he hoped to restore harmony, respect and objective business practices.

Gary Brandenburg also thanked all who voted for him and he stated he would work hard for peace and harmony in the Park. He is on a learning curve, having spent a lot of time with Pat McDonald. He reported there was an audit last week and some financial items he reported were \$60,414.74 in our checking account and \$226,017.90 in the savings account. They are looking at ways to get more interest on our cash. The \$68,000 from ComCast may be invested with a stock broker.

#### **Committee Reports**

Building – reminded members to register permit in the office if you are doing any building

Staking – moved to approve updated staking log

Recreation –discussed bringing bocce courts up to standard by purchasing crushed oyster shell topping each winter. 300# costs about \$16/100#.

Bylaws- moved to add the names of Jim Barbera and Pat Herzog as committee members and Pat McDonald as liaison. M/S/P Moved that Bob Morgan's recommendations be sent to the Bylaws Committee for discussion. M/S/P...next meeting is Saturday, July 30 at 10 a.m. Everyone is welcome to attend.

Orientation – Gary and his wife went through this training and said it was a good learning session.

Picnic Grounds – Jim Clark – most painting is completed. Need a really good turnout for the Labor Day function as it may take about \$16,000 to complete. Sign up for the dinner in the office.

ERT – 5 911 calls 2 inside and 3 outside  
Volunteers In Prevention Committee ...need 4-6 people in each section

Ad hoc committees all have met...blue ribbon committee has come up with substantial findings.....dog park committee

meets at 2 p.m. today Fine schedule review committee has met a couple of times....

Mediation Committee – moved to appoint Karen Eneboe to mediation committee. M/S/P

New Business – research into Skype for teleconferencing. Interim Manager Tim Heer reported that Skype requires a lot of expensive hardware. When asked how much is “expensive,” Interim Manager Heer replied that he did not follow up on that as he didn't think there was enough money in the budget. Current phone system can handle up to 3 lines for phone conference call

Tree committee recommendations that tree be trimmed in accordance with arborists recommendation at allotment #430

New Business – boundary markers – John Mancini asked the board to direct John Densem to verify the permanent markers that John Mancini and Paul Mancini put on their allotment. Discussion tabled.

Gary Brandenburg moved that the board adopt Robert's rules of order as their parliamentary authority. Heated and lively discussion ensued with the result that Gary Brandenburg withdrew his motion.

Jim Cook, Billy Uber and one other man carried on a disruptive conversation in the back of the hall and Greg Laskey asked them to take their discussion outside. They quieted down.

The Open Forum last night was a very positive experience. Notes from the meeting are shown on the following page of this issue of the PIP. Gayle Logan Silva was concerned that Park paid for services that did not have board approval. Others didn't like the time as they did not think it was convenient. Jim Cook suggested a town hall meeting once a quarter. These meetings will continue on the Friday prior to the Board meeting for the next 3 months or so and then perhaps a quarterly meeting will be held.

The meeting adjourned around 12:30.

The "K" in Kmart stands for Kresge, as in the chain's founder, Sebastian S. Kresge.

**Notes From Friday Open Forum  
22 July 2011**

**Dog Park** – meeting on Sunday 7/24  
2:00 p.m. at Gazebo  
Up Shrine way – no cost  
Section 4 under bridge – minimal cost  
Other – by community garden/in  
Section 6/by picnic grounds  
Concern – what about fish & game if  
by river?  
What about people cleaning up? (Sal  
Sigala can make us bag carrier)  
**Website** – prototype is working and  
board is looking at  
Some prefer NO password protection  
Minutes of most recent meeting  
should be in Bulletin – draft if needed  
Financial information available to  
anyone?  
In Bulletin – are we okay on quarterly?  
Can Members get copy or e-mailed in  
between if they want?  
**Agenda** – who crafted this one – was  
there other input?  
Staking – prefer it not take up so much  
time at beginning of committee reports  
What about at 9:00?? Ok  
Why can't easy ones simply be voted  
on instead of explained in detail?  
**Security gate** at front  
o LRP looking at  
**Front gate** – why can't there be a sign  
that says "ENTER HERE"  
(mapquest/GPS issues)  
**Census** – recently taken one that  
separates FT/PT people  
Should be in office – do guests even  
check in?—  
House numbers on allotments – for  
health/safety reasons – visible/  
fluorescent  
Does the board support this?  
Do members – and WHY do members  
-- have keys in their Membership files?  
Septic locations should be there

**Bylaws suggestions** – does the  
Board support the work Bob Morgan has  
given them?

**Enforce rules** against guests renting  
Need member input about who – staff  
should be looking for & following up on  
**Roof cleaning** – VIP program with  
teeth needed

**Cal Fire** can do inspections or do we  
need to do it ourselves

**Notice in Bulletin** – PPMC can clean  
up and charge members – letter could  
say "VIPs are coming next week"

Chimney cleaning and safety issues  
Yard waste clean up and redwood  
feathers – will we have October free  
dumps again?

Staking committee work –  
Are we doing again stuff already  
staked ? GPS and staking should be  
investigated

Bylaws change so BoD cannot change  
with good reason.

*Lois Laidlaw – 818-8879*

A **paraprosdokian** sentence consists of two parts where the first is a figure of speech and the second an intriguing variation of the first.

Never argue with an idiot. He'll drag you down to his level and beat you with experience.

I asked God for a bike, but I know God doesn't work that way. So I stole a bike and asked for forgiveness.

Going to church doesn't make you a Christian any more than standing in a garage makes you a car.

The last thing I want to do is hurt you, but it's still on the list.

If I agreed with you we'd both be wrong.

We never really grow up, we only learn how to act in public.

Knowledge is knowing a tomato is a fruit; Wisdom is not putting it in a fruit salad.

The early bird might get the worm, but the second mouse gets the cheese.

How is it one careless match can start a forest fire, but it takes a whole box to start a campfire?

Dolphins are so smart that within a few weeks of captivity, they can train people to stand at the edge of a pool and throw fish to them!

I didn't say it was your fault, I said I was blaming you.

Women will never be equal to men till they can walk down the street with a bald head and a beer gut and still think they're sexy.

A clear conscience is usually the sign of a bad memory.

You don't need a parachute to skydive, but you do need one to skydive again.

The voices in my head may be fake, but they have good ideas!

Hospitality is making your guests feel like they're at home, even if you wish they were.

I scream the same way whether I'm about to be eaten by a shark or seaweed touches my foot.

Some cause happiness wherever they go, others whenever they go.

You're never too old to learn something stupid.

The Barcolo Manufacturing Company of Buffalo, New York, started the American tradition of the office "coffee break." In 1902 they offered free coffee to their employees in order to boost morale, as well as a few free minutes in which to enjoy it.

California vintners in the Napa Valley area, which primarily produce Pinot Blanc, Pinot Noir, and Pinot Grigio wines, have developed a new hybrid grape that acts as an anti-diuretic. It is expected to reduce the number of trips older people have to make to the bathroom during the night.

The new wine will be marketed as **PINOT MORE**
